# WHY A SUMMIT?

With the initiation of the d.velop SUMMIT in 2024, we, together with our partners, have created a holistic space for inspiration, experience, and knowledge for 2,000 people focused on current challenges, efficient solutions, and forward-thinking innovations in business processes – from document management to digital signatures.

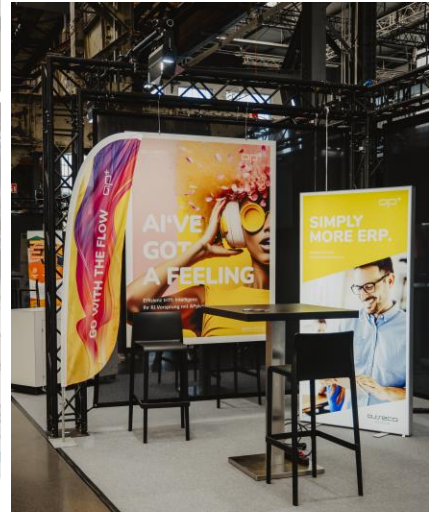

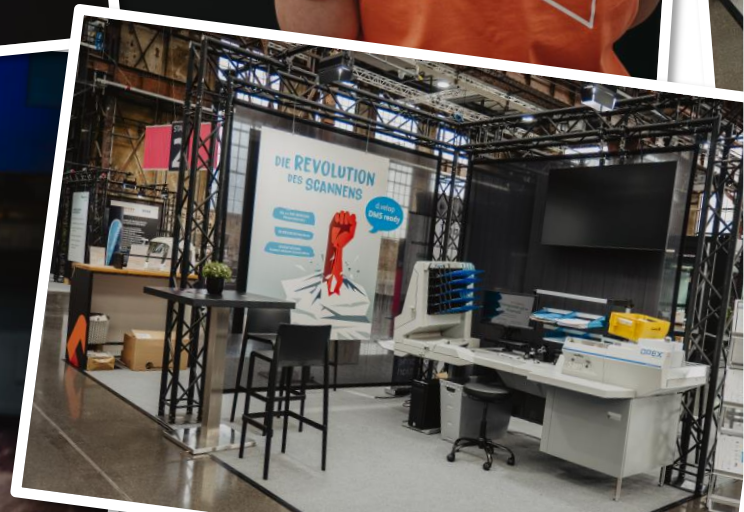

The d.velop SUMMIT is aimed for everyone focused on highly efficient content services applications, AI-driven information processes, and European data sovereignty. It serves as the central meeting point for the entire d.velop community, including decision-makers and users across various markets and industries, the developer community, partner companies, and ultimately all d.velopers. Nowhere else, at no other time of the year, will you feel the spirit of the d.velop community as intensely as here.
